

Oxygen Use in GA Aircraft Explained

Join West Valley Flying Club on December 10 at 7:30pm for a discussion about using portable and on board oxygen in GA aircraft. The seminar will include an overview of the atmosphere, partial pressure, hypoxia and other important topics relevant to the GA pilot. Equipment will also be discussed including information and proper use of bottles, cannulas, masks and pulse oximeters. Examples of equipment will be on hand for participants to see and touch. The speaker, Jerzy Orkiszewski, is a Commercial Pilot and West Valley Flying Club CFI with 1000+ hours of flight experience, and Owns a Cessna T182T based at KPAO.

Directions: From highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
